Michelle has developed privacy and cybersecurity compliance programs for a broad range of clients – from Fortune 500 technology companies, financial institutions, healthcare providers, and startups – to align with international and domestic privacy and data security laws. She also provides her clients with tailored and actionable advice relating to commercial transactions and the product design lifecycle, especially those involving biometrics, Big Data, children's data, artificial intelligence, and audiovisual recording and disclosure.

Boards, Memberships & Certifications

Memberships

— The International Association of Privacy Professionals (IAPP), Co-Chair, Northern Virginia KnowledgeNet

— ChIPs Network, Member

Certifications
